VERIFICATION OF AVAILABILITY TO BID

CONTRACT TITLE: One Year Countywide Contract For Rehabilitation Of Sanitary

Sewers By The Cured-IN-Place Pipe Lining Method

PROJECT NUMBERS: RPQ No. P0168

ESTIMATED CONTRACT AMOUNT: \$3,507,927.50

PROJECT DESCRIPTION:

The project consists of furnishing all labor, materials and equipment for rehabilitating defects in 8 through 36-inch diameter gravity sanitary sewer pipes and 6-inch diameter service laterals by the cured-in-place pipe lining method, at various and different locations anywhere within the limits of Miami-Dade County, Florida as ordered by the Department during a one-year period. The Department is currently responsible for maintaining the gravity sanitary sewers in Miami-Dade County, Florida. It is the intention of the Department to establish a "blanket" type contract with one (1) successful bidder, for a one-year period, to clean and line gravity sanitary sewer pipelines.

The work includes supplementary cleaning of the affected existing gravity sanitary sewers, isolating the reach of sewer to be repaired, inspecting it with closed circuit television (CCTV), then installing a cured-in-place pipe liner and reinspecting the repaired reach with CCTV. Repairs in industrial areas will utilize an epoxy vinyl ester resin system. The work in the sewer shall be accomplished through the manholes, without disturbing the street surface or adjacent property or any utility, except when performing excavated point repairs of sewers.

Work also includes cured-in-place lining of sewer laterals ordered by the Engineer, bypass pumping of sewage or plugging and monitoring, if needed, and other appurtenant and miscellaneous related items and work for a completed Project. The terms "work," "lining," "construction," "repair" and "cleaning" shall each be construed to denote any and all activities under this contract, regardless of its nature.

The contractor must certify that he has a minimum of two (2) cured-in-place installation crews and equipment in order to complete the work in a timely fashion.

Qualifications & Experience Requirement:

The contractor shall submit a schedule of their proposed work, as bid, including information on the experience of the firm, the personnel assigned to the repair work, and the experience of the crew leaders who will actually supervise and perform the field, as well as information on all equipment in order to complete the work in a timely fashion. The contract will not be awarded and no work shall commence until these submittals have been approved and the successful bidder has received a written Notice to Proceed respectively. The Department reserves the right to reject individual crew leaders due to either inadequate experience or unsatisfactory or poor performance on the job (in the Department's or Engineer's sole opinion). Along with its bid, the Contractor must submit proof that his/her firm has been regularly and successfully engaged in the commercial installation of the liner product for a minimum of one (1) year prior to the Bid Date, and has successfully performed an aggregate amount of at least 100,00 linear feet of sanitary sewer repairs of pipes 8 through 24 inches in diameter in subaqueous conditions.

The Contractor is required to meet the experience requirements listed above. The experience of personnel with any other Contractor/Company does not qualify the Contractor; the qualifying experience shall be the Contractor/Company bidding the project.

License Requirement:

The types of licenses required are: General Engineering, State Underground, Pipeline and/or other categories as applicable by Chapter 489 of the Florida Statutes or Chapter 10 of Miami-Dade County Code.

Bonding Requirement:

Can your firm bond at least \$13,407,244?

CONTRACT TITLE: W-931 Furnish And Install 36-Inch D.I. Water Transmission

Main Along SW 152 St. From SW 137 Ave. To SW 112 Ave.

PROJECT NUMBERS: W-931

EST VALUE OF GOODS & SERVICES: \$536,289.76

PROJECT DESCRIPTION:

This project is one in a series of projects that are being processed under Section 2-8.1.12 of the Code, entitled Miami-Dade Water and Sewer Department Consent Decree and Capital Improvement Programs Accelerate Ordinance.

The scope of work for this project consists of providing and installing approximately 13,788 linear feet of 36-inch water transmission main along SW 152nd Street from SW 137th Avenue to SW 112th Avenue. An additional 90 linear feet of 24-inch and 120 linear feet of 48-inch water main will be installed at the intersection of SW 152nd Street and SW 127th Avenue. There will be no water service connections installed on the water main.

The work includes, but it is not limited to, furnishing and installing all ductile iron piping, valves and fittings; furnishing and installing all tapping sleeves, valves and appurtenances required to make interconnections to existing mains; furnishing and installing all carrier and casing pipe and appurtenances required for construction of trenchless pipe construction under the Black Creek Canal (C-1N) and CSX Transportation railroad along SW 152 Street; utility relocations; furnishing traffic control; making temporary and permanent paving repairs; repairing all traffic loops along the route; and all other appurtenant and miscellaneous items and work for a complete, functional and satisfactory installation.

The work is located in a Portion of the South 1/2 of Sections 22, 23, and 24, Township 55 South, Range 39 East; a Portion of the South 1/2 of Section 19, Township 55 South, Range 40 East; a Portion of the North 1/2 of Sections 25, 26, and 27, Township 55 South, Range 39 East; and a Portion of the North 1/2 of Section 30, Township 55 South, Range 40 East, all lying and being in Miami-Dade County, Florida.

Can your firm perform the following scopes of service? (if yes, please attach a resume or fill out last pg)

| | Yes | No |
